

Fort Scott Community College

Graduation Requirements

Associate of Applied Science Degree

Associate of Applied Science Degree (AAS)*

The Associate of Applied Science Degree is awarded to students who have successfully completed an intensive, comprehensive two-year program that blends general and specialized career education. In addition to overall associate degree requirements, each candidate for the Associate of Applied Science Degree must complete requirements of the specific degree career programs and a minimum of general education credit hours.

General Core Requirements: These courses meet specific general education requirements. Some programs may require many hours of the following, but some may have fewer, more specific requirements.
