

Fort Scott Community College

Program of Study

Psychology

The study of psychology is the study of behavior and the mental processes. Coursework in psychology is useful in life as well as in pursuing a variety of careers in mental health as well as human resources/ management, employee recruitment and selection, public/community relations, marketing and advertising, program development, case management, substance abuse services, and other human service areas. At FSCC, the student will be introduced to the discipline through the core psychology courses of general and developmental psychology as well as others.
